CHEMICALS

Cal Pac Chemical Co., Inc.

A Cleaning Compound for your Needs

CAL 303

CAL 303 - Is a powdered burnishing and tumbling material for use with most type barrel finishing.

CAL 303 - Is manufactured primarily for use in burnishing of die cast, to insure brightness and depth in color. It is a balanced compound with high lubrication, to give extra smooth surface finish and bring out and maintain high luster and a light, bright color.
